 - React.js
 - RESTful API

I am a Web Developer & Designer. My objective is to further evolve and learn by working with experts in my field in a team setting. I have recently graduated from Seneca College, where I learned building responsive, user-centric, web applications using HTML, CSS, SASS, JavaScript, jQuery and React. In addition, I am also skilled in UI/UX design, graphic design, game design.

Education

■ 2019: Diploma in Interactive Media Design

Seneca College, Toronto.

GPA: 3.6 out of 4.

Relevant courses: web development, UI/UX design, graphic design, game design, interactive media business, project management.

■ 2018: Web Development Certification

Aptech Computer Education, India

Experience

■ Aug 2019 - Nov 2019: Front-end web developer , Toronto.

Intelense Inc - A technology company.

- I designed and developed their marketing website - www.intelense.com.
 - I also worked on the web module of their flagship project which uses artificial intelligence video analytics to provide an actionable alert to people monitoring surveillance cameras.
- Technologies used: HTML, CSS, Bootstrap ,React.js, and Electron.js.

■ 2019: Freelance modeling, Toronto.

Game Night - An online clothing store.

(website: https://shop.nextgamenight.com/).
